

## Class 1

*From Friday 26<sup>th</sup> July to Sunday 11<sup>th</sup> August, athletes from around the world will be competing at the Summer Olympics which this year will be held in Paris.*

*Your class has been chosen to find out a little more about the athletes travelling from **ICELAND** and their country.*

You could find out many things about Iceland and its athletes and show your learning in a creative way. Here are some ideas:

- Create a fact file about the athletes competing – their name, age and sport
- Create a menu of the foods that you might eat in Iceland
- Produce a tourist information leaflet about the best places to visit in Iceland
- Choose one of the sports Icelandic athletes will be competing in and explain how to take part
- Choose one landmark in Iceland – create a 3D model, paint a picture, draw a map or make a PowerPoint/video fact-file
- Find out 10 fascinating facts about the country
- Write a story about an Icelandic athlete at the Olympics
- On a map, label the route an Icelandic athlete would need to travel to reach Paris. Challenge - work out how many kilometres this would be.
- Find out some traditions followed in Iceland – present this information in an interesting way
- Design a board game or a quiz all about the country that you could play with your friends
- Create a fact-file about the wildlife (plants and/or animals)
- Or anything else you can think of to create!

**Bring your learning into school to share with your classmates by Friday 7th June.**
